FISCAL NOTE ANALYSIS

STATE OF ALASKA
2019 LEGISLATIVE SESSION**Analysis**

This legislation amends AS 14.17.510(a) by repealing the language that excluded the assessed property values of oil and gas production and pipeline property from the required local contribution calculation if the municipality was not levying a tax on those properties. This bill would expand the exclusion on the assessed values of oil and gas production and pipeline property to all municipalities since they would no longer be able to collect taxes on the value of those properties effective July 1, 2019.

There are seven school districts with oil and gas property that would be affected by this legislation (Anchorage; Cordova; Fairbanks; Kenai; Mat-Su; North Slope; and Valdez). The fiscal note's general fund appropriation was calculated by removing the associated full value of the oil and gas property from the school district's total full value determination, in order to establish a new required local contribution amount under AS 14.17.410. By removing the oil and gas property, each school district's required local contribution decreased. With the reduced required local contribution, the state aid portion of the foundation formula increased by a total of \$22,355.2 for these seven districts. This ensures that each school district receives their respective basic need as calculated under AS 14.17.
